

Six Daughters Story

2024

Purna Bahadur Rai and Sarmila were married 15 years ago. Sarmila was 19 years old and Purna was 30 years old when they got married.

They were poor but happy. Sarmila's background is Indian, Bengali. This Rai family gave birth to a first child after 1 year of their marriage and they named her Pratiksha. She is 14 years old now. It was a girl child and all were happy. First daughter helps the mother and takes care of the sibling, knowing that they are happy.

They gave birth to Bhawana, now 11, when Pratiksha was 3 years old, two girl children in the family but happy. Purna and Sarmila wanted to have a Son. She gave birth to a third baby when Bhawana was 4 years old, it was a daughter again and they named her Sandhya. Sandhya is 7 years old now.

Poor couple were desperate to have a Son. They did not care about how poor they were. They did not have a proper home, no fields to plant seed. No education. No job to get a salary. They both work in other people's field like a slaves.

First born Pratiksha, 14 years old now, and started to help Mother around the home and did take care of other siblings. When Sandhya was 2 years old Chandrakala was born. Chandrakala is 5 years old now and she is a 4th daughter.

When Chandrakala was 2 years old Pari was born. Pari is 3 years old now. Pari was 5th Child to Purna and Sarmila. They have 5 Children now and all of them were daughters. Their desire to have a Son in the family was so strong they did not care for their bodies. When Pari was 16 months old, they gave birth to 6th Child, they named her Manika.

Sarmila, a mother of 6 daughters, was weak outside but strong inside. She was poor but very rich in love. She wanted to give a brother to her daughters and a son to her husband. Until her last breath and blood she lived for her Dear husband and for her 6 daughters who were all girls.

Purna was a laborer in India, and he happened to meet Sarmila. Both of them met in a labor factory and loved each other and married. First three daughters, Pratiksha, Bhawana and Sandhya were born in Bengal in India, and last three daughters Chandrakala, Pari and Manika were born in Nepal.

There is no Sarmila Rai today, only her remains are there. But this is her story. She passed away due to fever and pneumonia just two months ago. She was never happy because she could not feel what happiness is, would you like to make her daughters happy?

A poor Father is half mined since their mother passed away. Many bad people eye on these poor and vulnerable Children. They could be taken away any moment.

Please don't waste Food, somebody is dying for not having enough food.

These are the Children of Purna and Sarmila, Sarmila died due to lack of medical treatment because of poverty.

You can adopt one of these Children and give it to us for care. Pick one Child and start sponsoring for food, cloth, school and good home.
